### The aim of the UERA:

The aim of the UERA is to promote the development of scientific competence of the researchers in Education field, to raise the quality of educational research in order to influence the educational system and the society, to exercise and defend the rights and freedoms, meet professional, scientific, social and cultural interests of the Association members.

### The UERA objectives are to:

- build a nation-wide viable research organisation established by the members for the members;
- advance empirical, data-driven educational research in Ukraine;
- promote inter-disciplinarity;
- expand the field of 'pedagogy' through engagement with the schools of 'action research', 'lesson study', 'evidence-based pedagogy' and others;
- promote critical dialogue, feedback and accountability between researchers, institutions and a wider society;
- contribute to professional development and research-capacity building of its members and member higher education establishments/ organisations;
- facilitate networking between educational researchers in Ukraine and abroad;
- create an infrastructure for sustained partnerships and collaboration amongst higher education establishments in the country and abroad;
- provide a critical, data-driven input to policy debate which concerns reforming education.
